

Join us for the first meeting of parents dealing
with similar life-altering circumstances on
Saturday, September 20, 2008
10:30 a.m. to noon
Hardesty Library
Maple Room

Extraordinary Connections meetings are a safe environment for the parents of children with rare genetic or metabolic disorders to find support, resources and truly empathetic companionship.

For purposes of this group, "rare" is defined as impacting five or fewer children within the state of Oklahoma or families without a diagnosis for their child's condition.

Unfortunately, childcare is not provided, but please don't let that prevent your important participation in *Extraordinary Connections*.

Meet two of our *Extraordinary Children*
